EDUCATION

-  **AN-Najah National University**
- **September 2019 - December 2023**
- Nablus, Palestine

Major and Degree:

Bachelor's Degree in Computer Science Apprenticeship Program,
Concentration in Software Engineering.

 For more info about the major, check this [Link](#).

INTERNSHIPS

-  **Endeavor Pal**
- **July - September 2024**
- Web Development

-  **ASAL Technologies**
- **March - June 2023**
- Front-End Development

-  **ASAL Technologies**
- **September - December 2022**
- Mobile Development

Work Experience:

- Learned Web, HTTP Protocols, Networks.
- Gained knowledge about RAG, LLM, and Vector Databases.
- Used a new tools like PostgreSQL, Python, Chart Libraries (D3.js, others).
- Learned ReactJS fundamentals and applied concepts in practical tasks.
- Gained hands-on experience in Web, API debugging, and responsive design.
- Completed tasks to reinforce skills and problem-solving abilities.
- Specialized in React Native, focusing on mobile application development.
- Conducted simulator and API debugging tasks, enhancing troubleshooting skills.
- Gained practical experience through hands-on practice sessions.

TECHNICAL SKILLS

Programming Languages: C++, Java, JavaScript.
Web Development: HTML, CSS, Bootstrap, NodeJS.
Database Management: SQL "MySQL", NoSQL "MongoDB".
Frameworks & Libraries: ReactJS, Angular, Spring Boot, React Native.

Others:

Version Control "Git".
Design Patterns "MVC, MVVM".
Containers "Docker".
CRUD "Postman".

PROJECTS SAMPLES

-  EstateLy
- **January - May 2022** 

-  Database Manager
- **September - December 2021** 

-  Learning Management System
- **January - May 2021** 

-  Student Assessment System
- **June - August 2020** 

-  Calendar
- **November - December 2019** 

Project Description:

Mobile application for real estate and its market, which provides adding and displaying real estate with all its info.

Java app for manage database, provide a connection environment between the user and the database and makes interaction between them easy.

E-Learning website & students' registration in online courses and intermediate communication between students and instructors.

C++ app manages a CSV file containing student info and exam marks, offering a menu in the console for various file manipulation options.

C++ app prompts the user to input a month, year, and the starting day of the month, then generates and displays the corresponding calendar.

CERTIFICATES

-  Front-End Development Internship Certificate
-  Mobile Development Internship Certificate
-  IoT Blockchain Supply Chain Network Builder
-  Certificate in Blockchain Essentials
-  Certificate in Big Data 101
-  Certificate in Introduction to Cloud
