Education

Udacity Front-end Web Developer Nanodegree

Aug 2025 - Present

An-Najah National University Bachelor's Degree in Computer Science

Sep 2019 - Dec 2023

Work Experience(Internships)

Web Development Intern Endeavor Pal

Jul 2024 – Sep 2024

- Compared vector databases like Pinecone and PGVector for RAG.
- Studied LLM and explored RAG implementation under constraints.
- Covered a variety of topics in HTTPS, SQL, and networking.

Front-End Web Intern ASAL Technologies

Mar 2023 – Jun 2023

- Applied ReactJS concepts, resulting **80%** proficiency in component.
- Debugged API's and improved workflows with **75%** accuracy.
- Learned React Virtual DOM, optimizing UI's updates and rendering efficiency.

Mobile Development Intern ASAL Technologies

Sep 2022 – Dec 2022

- Implemented React Native features, applying **70%** of learned concepts.
- Performed API's debugging and simulator testing with **80%** bug fixes.
- Conducted app testing functionality on real mobile devices for readability.

Technical Skills

Programming Languages: JavaScript, Java, C++.
Web Development: HTML, CSS, SASS, NodeJS.
Frameworks & Libraries: ReactJS, Angular, TailwindCSS.
Others: Git, MVC, Postman, MySQL.

Personal & Soft Skills

Problem Solving, Self-Learning.
Time Management, Attention to detail.
Communication, Collaboration, Teamwork.
Adaptability, Flexibility.

Projects Sample

[Portfolio-Site](#)
Sep-2025

Built a portfolio website, applying **85%** overall proficiency in Web Accessibility, SASS, Advanced CSS, Semantic HTML, and ARIA roles.

[StarLens](#)
Aug-2025

Developed a responsive Landing page using only HTML and CSS, achieving **70%** efficiency in Mobile-First, and compatibility across different devices.

[Learning Management System](#)
Jan 2021 – May 2021

Implemented a Simple Full-Stack platform using Angular, TypeScript, and Postman, applying CRUD operations and API, resulting **90%** success rate.

[Student Assessment System](#)
Jun 2020 – Aug 2020

Created a C++ console app to manipulate CSV files, applying **80%** proficiency in C++ basis like OOP, Functions, and Pointers.

[Calendar](#)
Nov 2019 – Dec 2019

Built a C++ console app simulating a generated Calendar with user inputs, applying **75%** of programming basics like Variables, Loops, and Functions.

Certificates
